Getting Started:

First, plug the mini USB flash drive (which contains the ambient sounds, lullabies, and bedtime stories) into the USB port on the back side of your star projector. Then connect the USB cable into the 5V DC power input and the other end into the USB power adaptor. Next, plug the power adaptor into the wall socket, and turn the power ON / OFF switch to the ON position. When the unit powers on it will display a blue nebula accompanied by laser stars fading in and out.

The USB drive will automatically recognize and play the audio files on the USB flash drive. You can use the remote (or controls on the rear of the star projector) to play, pause, or forward to the next ambient sound, lullaby, or bedtime story.

When the unit is powered on, you can connect it to your smartphone and play music via Bluetooth by adding the Bluetooth device named **“ILLUMI DREAMS”**.

You can control the colors of the nebula, its brightness, speed, laser stars, and sound activation as described in the remote features. Have fun and enjoy!

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party. Responsible for compliance could void the user's authority to operate this equipment.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
